

MEN

The most important measurement to get right is the waist, to make sure the pants stay in place while riding. The pants are super stretchy, and works well on different body types. The pants have a higher back and a lower front, to receive the best possible fit when in riding position. Due to the stretchy material the pants will fit most larger knee protection brands. **Pay attention to where it's YOUR measurements we mention and where it is THE GARMENTS measurements.**
